Wake up to fresh bread every day

Bake any flavour. It's easy and delicious!

You will love the irresistible smell of fresh warm bread every morning! Bread making is very simple... Add your ingredients at night, set the delay timer for next morning, and let the Philips bread maker HD9020/40 do the rest.

Bread just the way you like it

- 12 pre-set programmes to bake bread, dough and even jam
- Up to 13-hour delay timer to wake up to freshly baked bread
- "Add" indicator for speciality breads with extra ingredients
- Bake 3 sizes of loaf up to large 1kg
- 3 browning levels for your preferred crust

Great results with ease

- Intuitive operation with easy to use buttons for all users
- Handy recipe booklet included
- Measuring cup and spoon included
- Removable lid for easy cleaning
- Watch bread rise and brown in viewing window

With maximum safety

- Integrated non-slip handles for easy and safe handling
- The base stays cool and safe to touch

PHILIPS

sense and simplicity

Highlights

Easy to use buttons

The Philips breadmaker's operational buttons are arranged intuitively and in order to set the programs easily. First, select the bread type, then the weight according to the recipe and the browning level (or simply use the browning level pre-set), then start the program. Large friendly icons illustrate clearly what each button does, and a clear LCD screen confirms the options you've selected.

12 varieties of programmes

The Philips Breadmaker has 12 pre-set programmes that bake any bread to perfection, from rich and satisfying whole wheat to gluten free, French and sweet varieties. It also makes delicious dough for pasta, pizza, bagels, cookies and pastries – and jams too. Whatever you bake, it's always delicious and easy to do because the pre-sets take care of the temperature and time for the best possible results. And if you're in a hurry, you have a set of rapid programmes for baking in double quick time or even in one hour only.

13-hour delay timer

Enjoy the irresistible smell of fresh warm bread every morning – a true treat and the perfect way to start the day! Simply set the delay timer the night before and the breadmaker will prepare and bake your loaf while you sleep for freshly baked bread to eat the moment you wake up, or whenever you like.

Add ingredients indicator

Bake speciality breads with tasty extras like nuts or dried fruit – it's easy and fun to do. When the "add" indicator comes up, simply add the extra ingredients to the dough, and let the breadmaker do the rest. Add anything you like – nuts, seeds, olives, dried fruit, cheese, onion, bacon, nougat, chocolate and many more for speciality bread with a delicious difference!

Large bread size

Cook just the right amount of bread for your needs. Use the breadmaker's clear markings to make small, medium and large loaves of 500g, 750g and 1kg.

3 browning levels

You can enjoy your bread just as you like it with three browning levels. Choose a light, medium or dark crust, depending on your preference and on your favorite recipes.

Removable lid for easy clean

The inside of the breadmaker tin is non-stick and the unit itself has a removable lid. These make it very easy to clean: simply unclip the lid and wipe it clean in seconds.

Specifications

General specifications
